Annual accounts for the 2024/25 season

FC Bayern with new record turnover

Jan-Christian Dreesen: 'Strong results in turbulent times'

FC Bayern concluded the 2024/25 financial year with **total turnover of €978.3 million** – an increase of 2.8 percent over the previous year and another record figure. Operating profit (EBITDA) rose by **11.3 percent to €187.8 million**. Pre-tax profit amounted to **€42.5 million**, with net profit for the year at **€27.1 million**.

Jan-Christian Dreesen, FC Bayern München AG CEO: "FC Bayern remains financially strong, on track in sporting terms and united in its team spirit – that is our *Mia san Mia* trifecta. Despite turbulent times and a transfer market that has reached new heights, we have once again achieved record revenues and posted solid profits. This demonstrates the extraordinary strength and substance of our club. We are not volatile. FC Bayern is stable."

At a time when the football industry continues to grow but is also becoming increasingly unpredictable, FC Bayern is sending out a strong signal of reliability.

Dreesen continued: "We don't spend more than we earn. This attitude is part of our philosophy and will continue to guide us in the years to come. FC Bayern's success is the result of a strong community: dedicated employees, reliable partners and sponsors, and constructive cooperation within the executive and supervisory boards – for which I would like to express my sincere thanks."
